

HOW TO SUBMIT YOUR WATER SAMPLE FOR TRITON TESTING

TESTS ONE AQUARIUM

Before your first test:

A

Register your account online (www.triton-lab.de) and receive your login details.

B

Your aquaria

1 st aquarium	_____
2 nd aquarium	_____
3 rd ...	_____

Enter the details of the aquarium to be tested online.
Note: This kit tests one aquarium.

To submit a test:

1

Rinse vials 3x in the aquarium to be tested, then fill both vials with sea water and seal.

2

barcode

Fix a barcode sticker to each sample vial.

3

X-XXxxXxX
XXXXXXXXXXXXXXXXXXXX

Your aquaria

sampled aquarium	barcode
------------------	---------

In your online account click "connect barcode" for the sampled aquarium and enter the barcode number.

Note: 2 vials are needed to test 1 aquarium - the second vial is a backup sample.

4

remove cover from adhesive strip

Place sample vials in box, peel cover from adhesive strip and reseal box.

5

Place address sticker on box, apply postage (if required) and return to TRITON.

6

You will receive an email when your test is completed. Log into your account to retrieve test results.
